President of Evergreen Remodeling Earns EPA Lead Renovator Certification

Fort Wayne, IN, January 11, 2010 — **Sam Eagleson**, president of Evergreen Remodeling, Inc., a licensed, Fort Wayne-based residential and commercial remodeling firm, has earned the CERTIFIED LEAD RENOVATOR designation from the U.S. Environmental Protection Agency. The initiative is designed to help remodeler's safely remove lead based paint in homes and child-occupied facilities built before 1978. The EPA's new Lead: Renovation, Repair, and Painting Rule will go into effect on April 22, 2010. Eagleson successfully completed the program's required 8 credit hours of EPA approved training to earn the Certified Lead Renovator designation.
